

Mineralizing the Body for Immune Enhancement, Peak Performance, Detoxification

Natural liquid mineral based formulas are designed to restore your body to an optimal balance of physical, emotional and mental well being. This is achieved by removing obstacles that impede health, such as toxins and heavy metals, while restoring the life giving minerals, elements and amino acids that are seriously lacking in all our diets – even when we eat the best of foods. **Ambaya Gold** formulations have over 50 years of research behind them.

The formulas contain powerful proprietary mineral blends with advanced Monatomic delivery technologies. This incorporation of Ionic Minerals and Monatomic Elements dramatically increases the body's electrical conductivity and regeneration, creating the foundation for the vital life flow necessary for the function and appearance of our bodies and the function of our minds. The goal of these products is to increase health, prevent illness and maximize graceful aging.

For further information see Ambaya Gold products in the shopping section at www.evolutionwell.ca A complete program to restore and maximize health follows Ambaya Gold's 5 Steps to Radiant Health: Hydration, Re-mineralization, Detoxification, Repair and Regeneration and Integration and Maintenance.
